A Carefully Prepared and Conservative

CLAIMS OF BOTH PARTIES

Possible Loss of Six Congressmen to

THE HILL-MORTON CONTEST.

fade a Courageous Fight-Betting-Registration.

NEW YORK, November 3 .- (Special.)-The Democratic situation in New York State, to a certain extent, has been clouded by the drift of sentiment, as emonstrated in the Republican gains in Vermont and Maine several months ago, followed by a curtailed Democratic vote in Georgia. The Republicans have since claimed that they would have a land-They claim that the business depression for the last eighteen months greatly in their favor as a political om many Democrats of support.

On the other hand, the Democrats have Republicans, insisting that they were affiliated with the American Protective Association, and that the attacks on the toman Catholic Church have greatly injured the Republicans.

Nevertheless, the speeches of ex-Pres dent Harrison and ex-Speaker Thomas B. Reed have greatly strengthened the Rethe Republican managers insisted that Governor McKinley should not speak in New York city, on the ground that he is an extremist, while General Harrison and Mr. Reed would handle the tariff question with more conservatism. A DETERMINED FIGHT.

Both sides have made a determined fight for the congressional delegation. fight for the congressional delegation. The delegation as at present composed in the State is nineteen Democrats and fifteen Republicans. Richard Croker says that possibly three Democratic congressmen will be lost in New York city. In all of the districts three candidates are running, as follows: Tammany Hall, Republican, and anti-Tammany. It is believed that in several of the districts the contests will be close. At the most, however, the Democrats do not concede the loss of more than six congressmen in the State. The Republicans, on the other hand, are claiming a gain of ten congressmen.

VOTE OF NEW YORK. VOTE OF NEW YORK.

Before discussing the fight between Senator Hill and Lev! P. Morton, it may be said that the drift of the Democratic vote in the State and in New York and Kings countles, from 1538 has entered into the calculation of all politicians. In 1888 Hill's plurality for Governor over Warner Miller in the State was 19,171. Hill got a total plurality of 83,303 in New York and Kings counties in 1891. Flower's plurality for Governor over Fassett in the State was 47,937, Flower's plurality for Governor over plurality in New York and Kings coun-Fassett in the State was 4,53, Flower's plurality in New York and Kings coun-ties being 75,582. In 1892 Cleveland car-ried the State by 45,513, his plurality in New York and Kings counties being 105,855. In 1893 the State was all split ver the Maymard issue, and Bartlett. Republican candidate for Judge of Court of Appeals, carried the State 101.034 plurality. Yet Palmer, the 101.064 plurality. Yet Palmer, the ublican candidate for Secretary of the over Cord Meyer (Democrat), had a plurality of 24,484. The vote in York city was also peculiar, rd, the Democratic candidate for ynard, the Democratic Candidate for ige of the Court of Appeals, carried county by 31.677, and Meyer, the mocratic candidate for Secretary of ite, carried the county by 67.679. On cother hand, Bartlett, the Republican ndidate for Judge of the Court of Ap eals, carried Kings county by 20,786; nd yet Palmer, the Republican candidate or Secretary of State, only carried the ounty by 7,527.

DEMOCRATIC STRONGHOLD. Kings county, it is well known, has always been a Democratic stronghold; but last year there was a revolution over municipal affairs in that county, which will explain how Bartlett and Palmer got their pluralities on the State ticket. New York State is the home of the Mugwump. This peculiar political feature has been arrayed against Governor and Senator Hill for ten years. Hill has always been victorious over the Mugwump element. Kings county, it is well known,

He has made in the estimation of both Democrats and Republicans the most courageous and determined political campaign of our day. The Democratic campaign managers believe that he has united the party, and that he will win. The Republicans, on the other hand, declare that the drift is with them, and they predict a plurality of 40,000 for Mortes.

THE BETTING. The betting to-night is 2 to 1 on Morton. The Republicans have relied to a great extent for assistance on the candidacy of Everett P. Wheeler, the anti-organiza-tion candidate for Governor; and Mr. Wheeler's prospective vote is placed any-where between fifteen and thirty thousand. There are serious Democratic di-visions in New York and Kings counties. The Tammany situation is affective. visions in New York and Kings counties. The Tammany situation is affected by the developments of corruption in the police department, which is being land at Tammany's doors. In addition, the bad times have been uppermost in this great city, and yet, on the other hand, the Kepublicans have conducted an utterly foolish campaign on the American Protective Association issue; and this to a great extent has solidified Tammany's vote.

THE BROOKLYN VOTE.

While there has been a reorganization of the Democrats of Brooklyn since their overthrow last year, the independent voters do not believe that there has been a thorough weeding out of the old ele-ment, and the independents are led by a vigorous fighter—Edward M. Shepard a vigorous nginter—Edward M., Snepard—
who is alto responsible for the nomination of Wheeler for Governor against
Mr. Hill. It is well known that every
vote cast for Wheeler will come from the
Democrats of the Mugwump class. While Senator Hill has been conducting his courageous fight, ex-Mayor Grant has been equally active in New York city. LATER FIGURES.

The betting to-night is 2 to 1 that Morton will beat Hill in the State; and 100 to 70 that Strong, the combined Republican and anti-Tammany candidate for Mayor, will defeat Grant. The apparent indifference of President Cleveland to the canvass of Senator Hill has cut both ways. It has prevented active participation in the canvass by Federal officetion in the canvass by Federal office-bolders; and, on the other hand, it has awakened the interests of Democrats who have hitherto not favored Mr. Hill. on the ground that be was the regular cradidate for Governor; and the comment is made that the President should have manifested some interest in this great

The Republicans are jubilant, believing that they are to win everything. The Democrats are fighting courageously all along the line following the example of Senator Hill. The registration is about up to a presidential year, and a tremendous vote is anticipated.

CLAIMS AND COUNTER-CLAIMS.

Both Sides Express Themselves Confiden of Victory.

NEW YORK, November 3.-The Re publican State managers say they have reports from all parts of the State, which satisfy them that Morton will be elected Governor by from 50,000 to 75,000 plurality. Governor by from 50,000 to 75,000 plurality. So sure are they that leading members of the Executive Committee told a betting man yesterday to put up his money on 50,000 majority for Morton, and promised to cover all losges. The anti-Tammany leaders say the fight against Tammany has been conducted quietly, and without any attempt at sensational attacks, because they believed that the methods of the organization have become thoroughly familiar to all classes of voters, and especially since the Lexow Committee has been sitting. The leaders of the various organizations which are supporting the Committee of Seventy's ticket, were unanimous to-day in the opinion that that ticket would be elected by more than 30,000 plurality.

GRANT ON NEW TORK CITY.

GRANT ON NEW YORK CITY. NEW YORK, November 2.—Mr. Hugh Grant, the Democratic candidate for ayer, said this afterneen: "I feel plea-

lutely certain of the election of the entire Democratic city and county ticked by a majority that will emphasize the fact that this is a Democratic city, and that Democrats cannot be led to desert their party by men who pose as reformers in the hope of getting themselves elected to office. I never, in any campaign at any time, felt more confident of victory than I do now, on the eve of this election. The Democrats of the city are substantially united, and I expect to win by a large plurality. The plurality for Senator Hill and the State ticket in the city will, in my opinion, exceed 60,000.

ANOTHER HILL OVATION.

reception as he did to-night from his old riends and neighbors of the Chemun Valley. It was the greatest ovation that has been tendered him since he opened his campaign. Several thousand people were in town from all over Chemung county, and the several other counties situated in the valley. Special trains bearing hundreds of Democrats were run from Havana, Corning, Binghamton, Oswego, Hornelisville, Ithaca, and other places in this section, and from towns in Pennsylvania along the line.

The Senator was met by a reception committee and escorted to the Rathbun House here, where he held a public reception. Every one who grasped the Senator's hand bid him God speed in his fight, and promised that good work in his behalf would be forthcoming from them.

The Senator was to have been escorted to the hall in a carriage by the Reception Committee and the local Democratic clubs, and visiting delegations to the number of several hundred. After he had entered his carriage at the hotel, the horses had not proceeded half a block before they were unhitched from the carriage, and it was drawn to the hall, several blocks away, by enthusiastic Democrats.

Democrats.

The meeting was held in a wigwam which holds over 5,000, and there was standing room for 2,000 more. The structure was densely crowded. When the Senator made his appearance on the stage platform he received a cyclonic greeting, which lasted for over five minutes. The vast audience rose to its feet, and the name of Hill was on every lip.

FLOWER AND CRISP.

They Speak to Five Thousand Democrat

BROOKLYN, N. Y., November 3 .-Governor Flower and Charles F. Crisp, Speaker of the House of Representatives, were received at the Clermont-avenue rink, in Brooklyn, to-night by 5,000 enthusiastic Democrats. William C. Beecher, son of the late Henry Ward Beecher, presided. Mr. Beecher introduced Speaker Crisp, who then began his address, which was interrupted several times with

er Crisp, who then began his address, which was interrupted several times with loud cheering and clapping.

Mr. Crisp said that the hard times were due to the McKinley act and other pernicious laws enacted by the Republicans. He discussed the tariff at length, and concluded with an appeal to ail Democrats to do their full measure of citizenship on election-day. "Help us," said Speaker Crisp, "for at no other time in the history of our party have we needed the confidence of the people so much as now. Maintain a Democratic Congress by your vote on Tuesday, and you will have done your full share of duty as Democrats."

He said that it would be a good thing for the people of New York if they followed the footsteps of the people of Philadelphia and send their men to Congress and keep them there for years. He mentioned the names of Judge Kelley, Charles O'Neill, and General Bingham, who, he said, were in Congress nearly twenty-eight years.

who, he said, were in Congress heard twenty-eight years.
Governor Flower followed, and told of his trip through the State. He declared that the enthusiasm he had witnessed among Democrats everywhere inspired him with the belief that David Bennett Hill would be the next Governor of the

Flower Sure of Victory.

JERSEY CITY, N. J., November 2.—
Governor Flower reached Jersey City at 8:20 o'clock to-night, and was met by a committee of Democrats from Brooklyn, who escorted him to the Democratic mass-meeting in that city, where he had been announced to speak with Speaker Crisp. When asked about the success of his stimping trip through the State, he replied:

speeches since leaving Albany. The crowds have been very large-much larger than I expected to see, and I have not the slightest doubt of the success of the Democratic ticket. The presence of ex-President Harrison, McKinley, and other Republicans of prominence has made the Democrats fighting mad everywhere.

"I came to the conclusion that Morton's plurality down to New York city will be not more than 38,000, and is likely to range between that and 35,000. I base this prediction upon the energy with which Democrats everywhere in the State are working, and upon the very favorable indication everywhere of an increase in the Democratic vote. If my figures are correct, there is not the slightest doubt of the result. Senator Hill will be elected by a handsome majority."

Anti-Tammanyite Withdraws.

Anti-Tammanyite Withdraws.

NEW YORK, November 3.—Mr. R.
Franklin Lissauer, the anti-Tammany candidate for Congress in the Sixteenin District, withdrew from the race to-day. In a letter to Edward Regan, chairman of the convention which nominated him, Mr. Lissauer said that he withdrew for the good of his party, as he did not want to be the means of splitting the Democratic party.

Changer the Chipper.

Chauncey the Chipper. Chaucey the Chipper.

BINGHAMTON, N. Y., November 2.—

At Leroy fully one half of the population turned out to hear Mr. Depew, and stood patiently in the rain listening to every patiently in the rain listening to every word that fell from his lips. Avon was reached at 10:50, and witnessed another outpouring of the people. One hour later, Wayland came into view, and the same scene, or ,at least, something similar, was enacted. At Coshocton and Bath, too, enormous crowds had assembled, and in each place Mr. Depew seemed in excellent form, and as ready for a 15-minute speech as though it was the first day of his journey.

MR. CLEVELAND CONTRIBUTES. He Sends a Thousand Dollars for Use

the Congressional Campaign.

NEW YORK, November 3.-Major James W. Hinckley, chairman of the Democratic State Committee, this morning confirmed the statement that President Cleveland had contributed to the Democratic congressional campaign. "He sent two checks," said Major Hinckley, "the first for \$500. I do not know what amount the second check represented, but I believe it was for a similar sum."

was for a similar sum."

The State Committee has received no contribution from the President and no other communication than that sent out by Senator Faulkner last night.

FIRE IN INDIANAPOLIS.

Medical College and Scottish Rite Building Destroyed; Also, Eighteen Cadavers. INDIANAPOLIS, IND., November 3 .-A fire early this morning destroyed the Indiana Medical College, and quickly spread to the Scottish-Rite building adjoining, where the finest Masonic parajoining, where the linest Masonic paraphernalia in the West were reduced to
ashes. This outfit had but recently been
purchased, and the estimated loss to the
Masons by reason of its destruction, together with the five-story building and
all other contents, will reach \$100,000.

building, the Medical College having two floors above.

Every section of this structure was levelled to the ground, and a ghastly feature of the disaster was the fact that eighteen bodies stored in vats for dissecting purposes were burned to a crisp. The stench of the burning human flesh was nauseating. The bones of the cadavers dropped into the cellar, and presented a sickening spectacle.

The fire was still burning at 9 o'clock. Total loss about \$175,000; insurance, exclusive of that on contents, \$80,000.

Two Little Boys Save a Train Two Little Boys Save a Train.

WOODSTOCK, VA., November 3.—(Special.)—A heavy wind-storm passed over part of the Valley last Wednesday evening and blew two telegraph-poles across the railread track about two miles south of Edinburg, Va., at a piace called Cat Hollow. Two little boys of a Mr. Shelley saw the obstructions on the track. One of them tied a red rag on a stick, and the other, taking his hat, ran down the railread and flagged the south-bound passenger train, which stopped a short distance from where the obstruction was laying, and narrowing escaped being wreek-

in the noted train-robbery. The first press representative to greet him after his arrival was the Dispatch correspondent, in reply to whom he said:

"I am here in the interest of the Adams Express Company. There is a great deal I would like to give and which would, no doubt, be interesting reading for your paper, but I am not in a position at this time to make it public."

"What about the arrested suspect Morrison, at Cumberland, Md.?" I asked.

"I attach no importance whatever to it," he said. "My opinion is that he is the same man who was arrested in Washington some time ago on similar statements, and who gave his name as George Turner."

In response to other interrogations he informed me that the condition of Morganfield was such that he was doubtful whether he could be brought here in time for trial at this term of the court, in which event it is unlikely that the trial of Searcey would begin.

To-day Captain Hinde was with Searcey for some time, but what passed between them is unknown. He, however, informed me that there may be something for the public within the next three or four days.
